MEMORANDUM

ELM FCY EM

DATE:

February 22, 1990

TO:

File

FROM:

Rob Sulski, DWPC/FOS-II

&BS

SUBJECT: MWRD - Sludge Mgmt - 103rd & Doty

Jim Murray, MWRD's attorney called me this afternoon to report that with the rain (3/4" so far) on the S.E. Side there is a runoff event ongoing at 103rd and Doty. Samples are being taken and as soon as a tanker can get to the runoff site, pond pumping with transport to the Calumet WRP will resume. Murray will include the incident in the next PEC-committed quarterly report.

Murray further reminded me of recent MWRD Board approval on Phase I and II of the Closure Plan.
